# **Strengthening Relationship** with Stakeholders

## **Partnering for Progress**

We value open and continuous interaction and engagement with our stakeholders. We maintain active communication with investors, employees, suppliers, regulators, communities, and customers to ensure transparency and mutual understanding. These interactions help us identify emerging and existing material issues, address key concerns, identify opportunities and mitigate potential risks. By fostering strong collaborations, we create opportunities for innovation and develop strategic initiatives that support long-term sustainable growth.

### Stakeholder Engagement Process

At SRF, we have a comprehensive Stakeholder Engagement Mechanism that enables us to identify and engage with stakeholders that are impacted by our operations and at the same time which are relevant for our business. Our stakeholder engagement process is outlined as follows:

Identify

Identify internal and external stakeholders relevant to SRF and identify and prioritise key issues critical to each of the identified stakeholder groups

#### Plan

Establish objectives and scope of the stakeholder engagement. Allocate time, resources and responsibilities

Design engagement strategy and modes of communication for each stakeholder

#### Engage & Consult

Engage with each stakeholder group through interviews, etc. Share contextual information with stakeholders and follow-up sessions for feedback on identified material issues.

#### **Monitor & Report**

Ensure effective, timely documentation of consultation process and learning points, report back to stakeholders on commitments and peformance related to identified material issues and ensure transparency in the stakeholder engagement.

# Stakeholders' Engagement and Outcome

Stakeholder Group	Expectations	Channels of Communication	Purpose and Scope of Engagement	Key Responsible Groups
